Part X - FIN 48 Footnote

The Hospital and Foundation are not-for-profit corporations that have been recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code. The Hospital and Foundation apply accounting policies that prescribe when to recognize and how to measure the financial statement effects of income tax positions taken or expected to be taken on its income tax returns. These rules require management to evaluate the likelihood that, upon examination by the relevant taxing jurisdictions, those income

Part XIII Supplemental Information *(continued)*

tax positions would be sustained. Based on that evaluation, the Hospital and Foundation only recognize the maximum benefit of each income tax position that is more than 50% likely of being sustained. To the extent that all or a portion of the benefits of an income tax position are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of the position. Should any such penalties and interest be incurred, they would be recognized as operating expenses. Based on the results of management's evaluation, no liability is recognized in the accompanying combined balance sheets for unrecognized income tax positions. Further, no interest or penalties have been accrued or charged to expense as of September 30, 2024 and 2023 or for the years then ended. The Hospital's and Foundation's tax returns are subject to possible examination by the taxing authorities. For federal income tax purposes, the tax returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

Facility 1, Evans Memorial Hospital - Part V, Line 3e

To prioritize community health needs, a modified nominal group technique was adopted. Briefly, this involved a review of the CHNA findings with the CHNA steering committee, followed by a brainstorming session, after which there was a detailed discussion and ranking of identified potential priority areas. Of note, the CHNA steering committee, which included a representative from the local health department per federal regulation, agreed with community input on the pressing health needs of the community. These included:

1. Access to selected specialty health services, including mental health services, cardiology, cancer care, orthopedics, neurology, nephrology, gastroenterology, and surgery.
2. The (un)affordability of health insurance coverage,
3. Transportation, and
4. Community health education.

Three priority areas were selected from this list based on feasibility and urgency:

and Tattnall Counties. Key community stakeholders were also involved in reviewing and interpreting findings from the CHNA and developing an implementation plan to address prioritized community needs.

The community survey and focus group interviews assessed local health care access and community needs. The community survey was disseminated to residents of the hospital's primary service area via the hospital's website, social media webpages, and email listservs, as well as those of local community partners. Focus group participants were all key community stakeholders of Evans and/or Tattnall County. Collectively, perspectives obtained from the surveys and focus groups provided a holistic view of life in the community and the health and health care needs of the residents. Information from these primary data collection efforts was complemented by secondary quantitative data on the community's demographic and economic profile, health care access, and utilization. These data were obtained from multiple publicly available sources, including the US Census Bureau, University of Wisconsin's County Health Rankings, Centers for Disease Control (CDC), the Bureau of Labor Statistics, and Georgia Governor's Office of Planning and Budget population projections. The most recently available data were obtained from all data sources.
